

Siltech Crown Series

Crown Princess

To celebrate 35 years of cable excellence, Siltech introduced the Crown Princess interconnect cable. This limited-edition model combines many of our latest inventions and technologies. We're very proud of this cable and its pure and advanced monocrystal silver conductor. Its outstanding musicality and fantastic performance made it an easy decision to add a limited-edition Crown Prince speaker cable and a Crown Prince power cable to the series too.

All three cables have monocrystal silver conductors and multi-layer Kapton-Teflon insulation materials that work together perfectly to get the best out of any audio system. During the past 35 years, our extensive research, along with advancements in technology, has enabled us to continually produce products that set new standards in high-end audio.

Crown Series	Model	Cores	Metallurgy										Cross section		
			Silver-plated copper	Monocrystal copper	Pure silver-gold alloy	Pure monocrystal silver	Twisted pair	Star quad	Coax	Twisted coax pair	Siltech special Multicell	Kapton		PEEK (selected connector)	Teflon
